- It is proposed to re-elect Per Sjöstrand as Chairperson of the Board of Directors.

### **Reasoned opinion**

Prior to submitting the proposal for board members of the Company, the Nomination Committee has discussed the composition of the Board of Directors, i.e. in terms of industry experience, skills and experience. The Nomination Committee's starting point is that the Board of Directors' composition should be characterized by versatility and breadth and reflect the various skills, experiences and backgrounds of its members that are required for the Company's operations, stage of development and conditions in general. Diversity in terms of age, gender and other factors shall also be taken into account. The Nomination Committee has applied item 4.1 of the Swedish Code of Corporate Governance as a diversity policy.

The presented proposal means that a proportion of 40 percent of the board members are women. The Nomination Committee consider it to be of particular importance that there is no discriminatory selection of members on the basis of, for example, age, sexual orientation, gender or religious affiliation.

The Nomination Committee assesses that the proposed board composition is well balanced with regard to the Company's operations, stage of development and conditions in general and that the Board of Directors has a breadth and versatility well suited for the Company in terms of skills, experience and background.

In an assessment of the independence of the proposed board members, the Nomination Committee has concluded that its proposal for Board of Directors of the Company meets the requirements for independence set out in the Swedish Code of Corporate Governance.

Since it was established, the Nomination Committee has held two minutes-recorded meetings.
