

Hadeland Maskindrift is awarded operating contract for Oslo city center worth 660 mNOK.

Hadeland Maskindrift AS, a subsidiary of Green Landscaping Group AB (publ), has been awarded renewed trust in an operating agreement for maintenance of road network in central Oslo. This is a four-year contract with an option for another two years. The total contract value is 660 mNOK with option included.

- We are proud to receive continued trust from the City of Oslo and the agreement is of course good for the company. The agreement includes, among other things, a lot of cleaning that will be carried out 365 days a year, meaning long-term security for our employees, says Ola Kjos, CEO of Hadeland Maskindrift AS.

The agreement includes winter maintenance, including plowing, sanding, and salting of roads, sidewalks, footpaths, and cycle paths. In the spring streets will be swept and cleaned and during summer, maintenance work is carried out on the road network, replacement of drains, curbs, asphalt work, landscaping and more.

- We have been operating this agreement since 2018 and have efficient work routines for what is to be carried out. We are well acquainted with the various tasks and have a very good collaboration with the customer. This is the largest operating agreement in the City of Oslo, and it feels very good to be a part in keeping our beautiful capital clean and accessible. We are creating value for society, Ola Kjos concludes.
